OBJECTIVE

Machine Learning Engineer with deep expertise in Python, Deep Learning, NLP, and cloud deployment. Experienced in building end-to-end ML pipelines.

SKILLS

- Programming: Python, SQL
 - Machine Learning: Scikit-learn, TensorFlow, Deep Learning, NLP
 - Cloud: AWS, Docker
 - Tools: Git, GitHub, Jupyter Notebook, VS Code
 - Data: Pandas, NumPy, Data Visualization, Data Cleaning
-

EXPERIENCE

ML Engineer — AI Solutions Pvt Ltd (2022 - Present)

- Built NLP models for text classification using Python and TensorFlow
 - Deployed deep learning models on AWS with Docker
 - Used SQL for feature extraction from large databases
 - Maintained ML pipelines using Git and GitHub
-

EDUCATION

M.Tech - Artificial Intelligence — IIT Madras (2022)

CGPA: 9.2/10
