OBJECTIVE

Data Scientist with 2 years of experience in Python, Machine Learning, and SQL. Passionate about building AI-driven solutions and deploying scalable models using Docker and AWS.

SKILLS

- Programming: Python, SQL
 - Machine Learning: Scikit-learn, Regression, Classification
 - Tools: Git, GitHub, Docker, AWS, Jupyter Notebook
 - Data Science: Pandas, NumPy, Data Visualization
 - Cloud: AWS EC2, S3, Lambda
 - Other: Docker, Linux, REST APIs
-

EXPERIENCE

Data Science Intern — TechCorp India (2023 - 2024)

- Built machine learning models using Python and Scikit-learn with 92% accuracy
 - Deployed models on AWS using Docker containers
 - Worked with SQL databases for data extraction and analysis
 - Used Git and GitHub for version control and collaboration
-

EDUCATION

B.Tech - Computer Science — IIT Bombay (2023)

CGPA: 8.9/10
